Re: Letter of Recommendation
Salweyar Patel

April 22, 2020

It gives me pleasure to write a letter of recommendation on behalf of Salweyar Patel, a Business Technology Management student at Red River College. As an Entrepreneur-in-Residence I supervised and mentored Sal and other Applied Computer Science Students. Salweyar led the development of our web based application in the spring 2020 semester. During this time, Salweyar continuously demonstrated many exemplary qualities as a student, and more importantly as a person. I have worked in management and executive roles for the last 20 years and Sal stands-out among the best. His patience and friendly demeanor make him extremely approachable.

Salweyar constantly displayed excellent time management and organizational skills. He exercised due diligence in his work, priding himself on completing every deliverable on time. Salweyar is focused and determined. He knows what needs to be accomplished and completes each task professionally and creatively. Sal is well mannered, mature and has an inner drive to succeed. I see Sal as a person who has an interest in continuing to learn and grow. I see him as someone who can have an effective balance in managing work and personal priorities.

It was a pleasure having Salweyar's support in our project. The completion of the APP will separate us from our competitors and position us in a robust position for growth. He has a bright future and is deserving of any opportunities that comes his way. To whom this letter reaches, I would encourage you to present Salweyar with the opportunity to demonstrate his competences and he will confirm why you made a great decision.

Thank you,

A handwritten signature in black ink that reads "Grant Reid". The signature is written in a cursive, flowing style.
